INFANTILE PARALYSIS CLOSES RURAL SCHOOLS

Three Severe Cases Reported from Garrison and Maple Grove Twps. Examination by Dr. Beise

Disease Reported in Half a Dozen Families, Cold Weather and Quarantine will Check Further Spread

Dr. R. A. Beise has returned from an examination of infantile paralysis cases in Crow Wing county. At the solicitation of farmers of Garrison and Maple Grove townships, he made a personal investigation.

Two district schools have been closed. One at Dykeman was closed two weeks ago and the school at Neutral just recently.

Three actual cases of the dread disease were found. A boy of Chas. W. Wunderlich in Garrison township has a foot paralyzed. A boy of James Dykeman has both legs paralyzed. A little girl of Mel Crowell has one hand paralyzed.

In detail the cases are as follows: In the family of Charles W. Wunderlich, Garrison township, a boy of 9 has the disease and one foot is paralyzed. The family has been put under quarantine.

James Coffeld had five children down with the sickness and all have recovered.

Thomas Dykeman's boy of 9 has recovered.

James Dykeman has a boy of 7 with both legs paralyzed. One other child, 4 years old, had the infantile paralysis and has practically recovered. Five other children in the family, exposed to the disease, did not catch it.

Three were sick in Mel Crowell's family. All have recovered except one little girl who has lost the partial use of one hand. Six children and four grownups in the family appear to have been immune.

John Aylward, of Maple Grove, had two cases, his girl of 15 and another 2 years old. Both have practically recovered.

No doubt there are other cases, mild ones, in the country, as children are sometimes sick but 24 hours.

One death reported was that in the Blix Kyllingstad family, the child recovering from infantile paralysis, and then dying from pneumonia.

Dr. Beise investigated the families of Elmer Persson, Ernest Persson and others. The sickness was dysentery and bowel trouble. Cold weather and quarantine regulations will do much to stamp out the disease.

CANADIAN WHEAT FAR SHORT OF 1915 YIELD

Ottawa, Ont., Oct. 16—The wheat crop of Canada will be only 159,123,000 bushels, as compared with 370,303,600 bushels in 1915, according to an official estimate just issued.

The average an acre was estimated at 14 1/2 bushels from a harvested area of 10,085,300 acres, as compared with 29 bushels from a harvested area of 12,986,400 acres in 1915.

A marked decrease in the production of oats also was indicated by the estimated yield of 338,469,000 bushels from 9,795,000 acres, a yield of 34.55 bushels an acre as against 45.76 bushels last year, when the production was 520,163,000 bushels from a harvested area of 11,365,000 acres.

The barley crop was estimated at 32,299,000 bushels from 1,328,800 acres, or 24.31 bushels an acre. Last year's crop was 53,331,300 and the acreage 1,509,350.

CHILDREN PERISH IN FLAMES

Once Rescued, Become Frightened and Rush Back Into Fire.

Missoula, Mont., Oct. 16—John Dawson, three years old, and Olive Dawson, five, children of Clifford Dawson, Stevensville, Mont., were burned to death in a fire which destroyed their ranch home. Eva Dawson, thirteen years old, suffered burns which are expected to prove fatal.

Mr. Dawson was away and the mother and her six children, whose ages range from three months to thirteen years, were alone in their frame house when the fire broke out.

Mrs. Dawson awoke to find the place all afire. She roused her children and got all of them out of the house, but John and Olive, frightened by the flames, ran back into the house and perished.

Long Branch, Oct. 16—The statements of President Underwood of the Erie road and Robert Lovitt, chairman of the board of Union Pacific directors, endorsing President Wilson, and disputing the claims that the president acted with political expediency when he forced through congress the eight hour law for railways, was the best news for some time, President Wilson's lieutenants declared.

Selwyn P. Coffrain, age 40, business man of Brainerd, is reported drowned in Lake George near Cross Lake late Sunday afternoon.

An upturned duck boat floating aimlessly on the lake was the mute evidence of the tragedy.

Art Koop and S. P. Coffrain left Brainerd Sunday morning at 3:00 in the morning on their hunting trip, traveling in a Ford truck. At the lake they met Julius Deering and Dean White.

Deering, White and Koop started hunting along the shore and left Mr. Coffrain and the last seen of him was when he paddled out to shoot ducks by himself.

The three young men returned in the evening and found the upturned duck boat. A search was instituted and kept up until Monday afternoon with no indications of the body.

Messrs. Deering, White and Koop returned to Brainerd Monday afternoon, leaving Merrifield at 2:30 o'clock. Searching parties were formed at Brainerd and three cars have gone to the scene of the disaster.

Mr. Coffrain has conducted the Club barber shop and pool room at 616 Front street. He was a veteran of the Spanish American war, serving in the army with distinction. He was a member of the Elks, Court of Honor and Eagles.

He leaves a wife and one little boy, the family residing at 807 Holly street.

Lake George is a large sheet of water and contains several islands and it may take days to find the body.

Mr. Coffrain had a large acquaintance and his friends knew him by his nickname, "Sunny." He was of a cheery disposition and his passing away is a distinct loss to the city.

Three cars starting for Lake George this afternoon contained searchers headed by George Hess, Bobby Larson and G. W. Matheson.

Paris, Oct. 16—William Chester Silbermann of New York has been sentenced by the correctional court to five years in prison and 500 francs fine on a charge of trading with the enemy.

Frank Patrick, of Brainerd, wants \$25,000 from the Northern Pacific railway for the loss of his right foot.

Patrick filed a personal injury suit in the district court at St. Paul for that amount. He alleges that his foot was caught by a defective plank in a Brainerd railway crossing and that it was run over and had to be amputated.

The accident, as recalled by Brainerd people, occurred at the Broadway crossing on a Sunday afternoon. Patrick, it is alleged, attempted to board the Duluth afternoon passenger at 2:30 o'clock. The train was under way, it is said, with doors closed and Patrick "jumped it," but was unable to retain his hold. One foot caught between plank and rail of the crossing, his shoes were torn from his feet and one foot was badly crushed. Patrick at the time boarded at the East hotel.

GERMANS TAKE MOUNTAIN PEAK

Retake Smotreo Height From Rus-
sians as Big Struggle Is Resumed in
Eastern Field—British Make Some
Additional Gains.

London, Oct. 16.—Although the
Roumanians in Northeast Transylva-
nia continue to fall back before the
Austro-Germans from this region all
along the battle line to the vicinity
of Orsova on the Danube, they not
alone are giving battle to their ad-
versaries, but at several points by
violent counter attacks have gained
an advantage over them.

Bucharest admits the retirement of
the Roumanian forces in the Kallman
mountains on the northwest front, but
says further south infantry of the
Teutonic allies was put to flight by
their artillery fire.

Successes also were obtained by the
Roumanians in the Oltuz and Jiu val-
leys, where violent attacks were re-
pulsed with heavy casualties. On both
sides of the Szurdok pass the Rou-
manians continue on the offensive,
but Berlin says their attacks have been
repelled.

On the Carpathian mountains the
Austro-Germans have recaptured the
height of Smotreo. In Volhynia violent
fighting again has broken out. Here
both the Russians and the Teutonic
allies claim successes for their forces.

Russ Attacks Blocked.

Petrograd says that north of Koryt-
niza the Russians captured a German
trench, inflicting heavy casualties on
its occupants. Along the Stokhod,
Berlin says, Russian attacks were re-
pulsed.

German trenches in the neighbor-
hood of the Staff and Schwaben re-
doubts in the Thiepval region of
France have been captured by the
British, and with them more than 300
prisoners. To the east, near Guedecourt,
the British also have slightly
advanced their line.

Berlin admits that the British north
of Thiepval gained a firm hold on the
German trenches, and that the French
south of the Somme have won a foot-
ing in the sugar refinery at Genermont.
The French in Saturday's fighting
in the Ablancourt-Belloy sector
made 1,100 Germans prisoners.

In Macedonia the Serbian troops
have made a further advance along
the left bank of the Cerna river, while
the French have cut the railway line
south of Seres.

Still further gains for the Italians
against the Austrians in the Carso re-
gion are recorded by Rome.

His Biggest Mistake.

ever made?"
"Thinking I was too foxy to make a
big mistake."—Cleveland Leader.

Easier to Stop Now

It is easier to check a bronchial
cough now than later. Coughs grow
worse the longer they continue. Fol-
ey's Honey and Tar stops tickling in

membranes to healthy condition, op-
ens congested air passages, and af-
fords longed for relief. H. P. Dunn,

**WRITER SAYS U-BOAT
VIOLATED DOCTRINE**

Paris, Oct. 16.—According to Jean
Herbette, military strategist and writ-
er on international affairs, the Ger-
man submarine U-53 made a breach in
the Monroe doctrine by sinking ves-
sels off the New England coast and it
remains to be seen whether the United
States will "sustain the celebrated
American tradition or let it be cast
aside."

"France is only a disinterested spec-
tator in the debate," M. Herbette says.
"because it makes little difference to
her whether the Germans operate on
one side of the Atlantic or the other,
but it will produce a great change in
the political equilibrium of the world
if the doctrine shall be abrogated by
President Wilson."

"The Jeffersonian maxim against Eu-
ropean interference on the other side
of the Atlantic applies in fact to Amer-
ican waters as well as to the continent
itself."

How She Missed It.

"My wife managed to drive a nail to-
day without hitting her thumb."

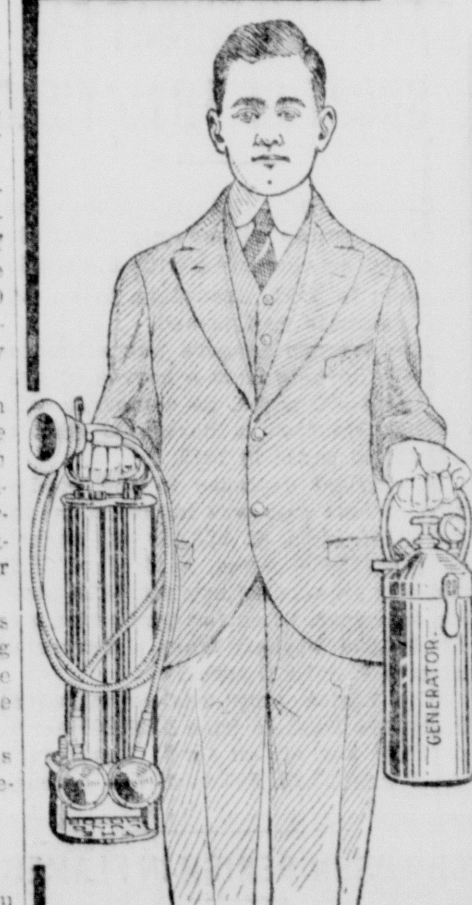

"How was that?"

"She inveigled the hired girl into
holding the nail."—Louisville Courier-
Journal.

Depends.

"Is bolting a refining process, pa?"
"That depends, my son, whether it
is done in flour mills or at the table."—
Baltimore American.

Austro-Germans have recaptured the
height of Smotreo. In Volhynia violent
fighting again has broken out. Here
both the Russians and the Teuto-
nic allies claim successes for their
forces.

Russ Attacks Blocked.

Petrograd says that north of Koryn-
niza the Russians captured a German
trench, inflicting heavy casualties on
its occupants. Along the Stokhod,
Berlin says, Russian attacks were re-
pulsed.

German trenches in the neighbor-
hood of the Stuf and Schwaben re-
doubts in the Thierval region of
France have been captured by the
British, and with them more than 200
prisoners. To the east, near Gneude-
court, the British also have slightly
advanced their line.

Berlin admits that the British north
of Thierval gained a firm hold on the
German trenches, and that the French
south of the Somme have won a foot-
ing in the sugar refinery at Gener-
mont. The French in Saturday's fight-
ing in the Ablancourt-Bellay sector
made 1,100 Germans prisoners.

In Macedonia the Serbian troops
have made a further advance along
the left bank of the Cerna river, while
the French have cut the railway line
south of Seres.

Still further gains for the Italians
against the Austrians in the Carso re-
gion are recorded by Rome.

His Biggest Mistake.

"What was the biggest mistake you
ever made?"
"Thinking I was too foxy to make a
big mistake."—Cleveland Leader.

resentative American?

Easier to Stop Now

It is easier to check a bronchial
cough now than later. Coughs grow
worse the longer they continue. Fol-
ey's Honey and Tar stops tickling in
throat, allays inflammation and irri-
tation, retires sore and discharging
membranes to healthy condition, op-
ens congested air passages, and af-
fords longed for relief. H. P. Dunn,

**WRITER SAYS U-BOAT
VIOLATED DOCTRINE**

Paris, Oct. 16.—According to Jean
Herbette, military strategist and writ-
er on international affairs, the Ger-
man submarine U-53 made a breach
in the Monroe doctrine by sinking ves-
sels off the New England coast and it
remains to be seen whether the United
States will "sustain the celebrated
American tradition or let it be cast
aside."

"France is only a disinterested spec-
tator in the debate," M. Herbette says,
"because it makes little difference to
her whether the Germans operate on
one side of the Atlantic or the other,
but it will produce a great change in
the political equilibrium of the world
if the doctrine shall be abrogated by
President Wilson."

"The Jeffersonian maxim against Eu-
ropean interference on the other side
of the Atlantic applies in fact to Amer-
ican waters as well as to the contin-
ent itself."

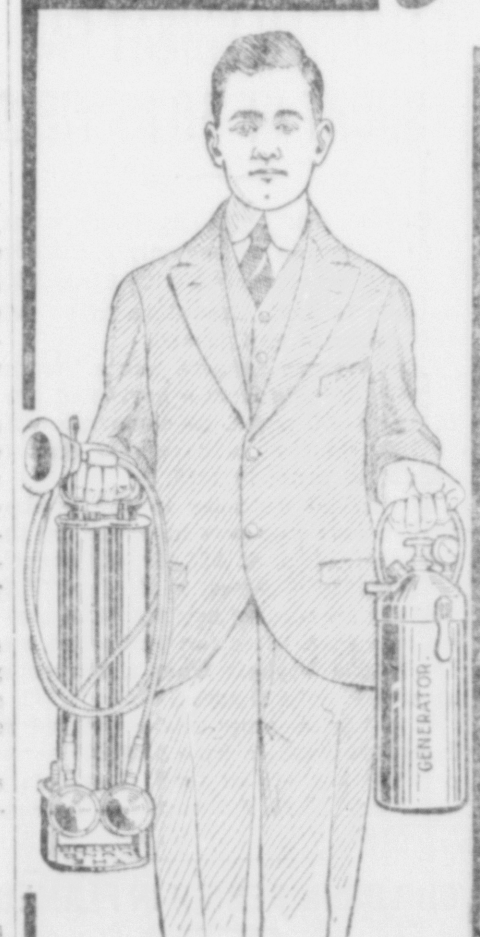

How She Missed It.

"My wife managed to drive a nail to-
day without hitting her thumb."
"How was that?"
"She inveigled the hired girl into
holding the nail."—Louisville Courier-
Journal.

Depends.

"Is bolting a refining process, pa?"
"That depends, my son, whether it
is done in flour mills or at the table."—
Baltimore American.

laughing. Never sigh when you can
sing.—W. Mackworth Tread.

national organization, will be held
Tuesday evening at 8 o'clock at the
home of Mrs. W. C. Cobb.

This is the fourth year of the ex-
istence of the local body, which was
organized shortly after St. Paul and
Minneapolis completed their organi-
zations. The first president was
Miss Barrett, who served two years.
The second was Miss Mary Small. The
election of officers that evening is one
of the important matters of business
to be brought up.

The membership of the Brainerd
League is 45 or more, and the work
it does has an important bearing on
the general school work of the Brainerd
district.

"MISS CHERRY BLOSSOM"

Will be Presented October 19 and 20

Auspices

"Miss Cherry Blossom", play of
John Wilson Dodge, which was suc-
cessfully presented at Brainerd, is to
be given at Faribault October 19 and
20 under the auspices of the Elks
lodge.

Mr. Dodge is well known in Brainerd
and his many friends are glad to
hear of the success of his play.

Woman's Relief Corps

Mrs. Lucy Lewis, of Minneapolis,
Inspector of the Woman's Relief
Corps, will be present at the meet-
ing of the corps on Tuesday after-
noon at 2 o'clock in Elks hall. A
large attendance of members is re-
quested.

MEYER-RIEMANN

Brainerd Minister and Charming
Bride of Faribault in Church
Ceremony at Faribault

(The Daily News-Republican, of Far-
ibault, Oct. 13.)

One of the prettiest weddings of
this season was that of Miss Frieda
V. Meyer, oldest daughter of Rev.
and Mrs. William Meyer, and one of
Faribault's charming young ladies,
to Rev. William Riemann Brainerd,
on Tuesday evening at 7:30 o'clock
in the St. Lucas church. Rev. K.
Koch of St. Paul, performing the
ceremony.

The church was profusely decorat-
ed with autumn leaves, palms, roses
and chrysanthemums, the altar being
banked in a most effective way.

Miss Mary Kroehler of Henderson,
Minn., was the bride's maid of hon-
or and was gowning in a handsome
frock of blue crepe de chine with an
over-drape of net of a delicate blue.
She carried a bouquet of pink Kil-
karney roses. The bridesmaids were
Miss Lydia Riemann, sister of the
groom, and Miss Elsie Fruechte of
Elisen, Minn. Miss Riemann's frock
was of yellow taffeta with trimmings
of white georgette crepe and she car-
ried yellow chrysanthemums.

Miss Fruechte was gowning in a
lovely dress of pink taffeta with a
over-drape of white georgette and
she also carried yellow chrysanthem-
ums. Little Miss Ann Becker,
daughter of Rev. and Mrs. Becker of
Millville, Minn., was the little flower
girl and she was dressed in a dainty
frock of white organdie and carried a
pretty basket with sweet peas and
lilies of the valley.

The bride was lovely in a hand-
some gown of white pussy willow taf-
feta with an over effect of white
georgette and daintily trimmed with
silver lace. Her veil, which was em-
brodered with caught up in a charm-
ing effect with lilies of the valley
and was made entrain. She carried
a shower bouquet of bride's roses
and lilies of the valley.

Rev. Riemann's best man was Rev.
A. F. Meyer of Minnesota Lake, a
brother of the bride and the ushers
were William Meyer and Martin Rie-
mann. Just before the ceremony,
Miss Edna Schmaedeke and Miss
Louise Riemann sang very sweetly,
"Die Macht der Liebe," and Sister
Amalia Klopsteg presided at the or-
gan and played Mendelssohn's wed-
ding march, as the bridal party en-
tered the church and used the bridal
chorus from Lohengrin for the reces-
sional.

The order of the procession as it
entered the church was:

Mr. William Meyer and Mr. Mart-
in Riemann, the two ushers, follow-
ed by the two bridesmaids, the Miss
Fruechte and Miss Riemann, then
the maid of honor, Miss Kroehler en-
tered next, walking alone. Then lit-
tle Miss Hannah Meyer, sister of the
bride, and little Miss Anne Riemann
sister of the groom, entered together,
both wearing dainty frocks of sheer

white material and carrying autumn
leaves which they threw in the path
of the bride. Little Miss Becker pre-
ceded the bride who entered next on
the arm of her father who gave her
in marriage.

Following the ceremony the bridal
party and relatives repaired to the
basement of the church where a re-
ception was held, there being about
two hundred and fifty guests present.
The rooms were attractively decorat-
ed with autumn leaves and flowers.

At nine o'clock a wedding supper
was served at the home of Rev. and
Mrs. Meyer for the bridal party and
immediate members of the two fam-
ilies. The home was elaborately de-
corated with flowers, chrysanthemums
and roses being used in profusion. A
pretty color scheme of green and
white was carried out both on the
tables and throughout the room.

The bride is one of Faribault's
popular young ladies. She is a grad-
uate of the Faribault High school in
the Class of '13 and taught school
for one term at Round Lake and one
term at Eyota. Last year she attend-
ed the Mankato Normal school.

Rev. Riemann is also a Faribault
young man, although a greater part
of his life has been spent away from
here. He is the son of Mr. and Mrs.
August Riemann, who reside a short
distance from Faribault. He is a
graduate of the Elmhurst College at
Elmhurst, Ill., and of the Eden Sem-
inary at St. Louis. Rev. Riemann is
the pastor of St. John's church at
Brainerd, where he and his bride will
reside. They will be at home to
their friends after December 1st at
612 Pine street.

Rev. and Mrs. Riemann have gone
on an automobile tour of the west
and expect to be gone for four weeks
or more.

Among the out of town guests pre-
sent were Miss Emma Fisher of Hart-
ley, Iowa, Miss Ida Kroehler of Hen-
derson, Mary Fowler of Waseca, Miss
Laura Riemann of St. Paul, Harvey
Knauss of Nerstrand, Rev. and Mrs.
Koch of St. Paul, and Rev. and Mrs.
Becker and daughter of Millville.

that is bound to enthrall man, wo-
man and child. It is a man's story
because it deals with the great por-
tions of steel mills and the relentless
upward fight of a man who makes
material success his goal. It is a
woman's story because of the power-
ful love interest that runs through it,
and the ultimate triumph of love over
all worldly ambition. It is a picture
that will delight the young because
of its scenic variety and the clean,
wholesome but thrilling onward
sweep of its narrative.

THE PHILOSOPHY OF THE "HAND-ME-DOWN"

The ready-made suit is an American creation and a characteristically American institution. Even its style is characteristic. Europeans are wont to smile at the broad, padded shoulders, the large hips, the general air of athletic size and power. They regard all that as another tell-tale proof of American bluster and bluff. Every American, they say, wants to look like a Hercules.

But they don't understand. The creator of "Bunker Bean," the novel and play here whose adventures are familiar to a large part of the American public, does understand. In one little incident in the life of Bunker Bean lies an illuminating philosophy of clothes.

Bunker, the puny and insignificant youth, is attracted by a typical advertisement directed at the "advanced dresser." The pictorial representation of the seasonable suit is eloquent and the accompanying explanation is more so.

"It is cut to give the wearer the appearance of perfect physical development. And the effect so produced so improves his form that he unconsciously strives to attain the appearance which the garment gives him; he expands his chest, draws in his waist and stands erect." And with the physical change an equivalent mental expansion and transformation.

The wearer's soul takes on the attributes of the suit. He not merely feels the ease and poise that are put on afresh every morning by an "advanced dresser," but his soul adapts itself to the lines and qualities of the garment. He feels the strength and confidence of an athlete. He can "knock the world's eye out." He can "look any man in the eye and tell him to go to Hades."

That is the way it worked with little Bunker Bean. Who can tell how much of our American aggressiveness, self-confidence and victorious energy are due to the potent influence of "hand-me-down" clothes?

LEAVES AND WEEDS

A street-sweeper laboriously rakes together the dead leaves fallen from the shade-trees. He rakes them all up in neat piles, and goes away. Boys come along and play in the piles, scattering them. The wind scatters them farther. Finally along comes a city cart. It is a heavy cart, with a small capacity, hauled by a big, strong horse and driven by an abled man. The man laboriously gathers up the leaves with a shovel, fills his cart and then hauls them away to a dump somewhere. His cart holds perhaps 20 or 30 pounds of dry leaves. It never occurs to the city to get rid of them by burning them in some vacant lot along the street, thereby saving nine-tenths of the cost, or of urging citizens to use them to protect and fertilize their lawns.

The vacant lots, by the way, are overgrown with weeds. There is an ordinance requiring the weeds to be cut, but it isn't enforced. The owners of the idle land ignore their responsibility. If neighbors kick hard enough, maybe the city sends a force of men to cut them down—at the city's expense. The pollen gives people hay fever. The seeds fly all over the neighborhood, insuring a plentiful growth of new weeds next summer in every yard.

This is just a trifle that a visitor noticed in a big city the other day, yet it has its local application. It amused him, and yet it was tragic in a way. It represented the all-round inefficiency, the plain awk-

wardness and ignorance and carelessness, with which most cities, big or little, do their municipal housekeeping.

Republican View of Wilson's Militiary Policy

BY GEORGE G. HILL
(Written for the Republican National Committee)

No policy of the Wilson administration better illustrates its inefficiency and its indifference to the comfort and welfare of the people than that which it has pursued with regard to the National Guard.

No patriotic American can object to the President's calling upon the National Guard to aid the regular army in protecting the territory of the United States when an emergency makes that course necessary. Many people are convinced that had Mr. Wilson faced the facts regarding Mexico, instead of sneering at those who advocated preparedness, in his message to Congress of December, 1914, he would have appreciated the necessity of increasing the regular army and thus have avoided the necessity of calling upon the militia this summer, but that is another proposition.

When called upon the National Guard responded loyally and cheerfully and hastened to the border as rapidly as conditions would permit. After a time General Order No. 20, was issued. This provided that the heads of families and those having others dependent upon them should be relieved. The order was proclaimed to the public and many wives, dependent mothers and others hailed it with delight. But there appears to have been another order, privately issued, which in effect nullified Order No. 20, for many men whose loved ones were in actual want, or were being supported by the patriotic donations of the communities in which they lived, sought to obtain their discharge under Order No. 20 and were met with information from their officers that they were forbidden to make such application.

There appears to be no good reason for keeping the guardsmen on the border all this time. A redistribution of the command of General Pershing along the border, the assembling of a greater force of regulars, etc., and sterner, more emphatic methods of dealing with Carranza would doubtless have made possible the release of at least all those who have wives or others dependent on them for support, if only administration regarded that end of sufficient importance to warrant its attention.

Witness War Games

(By United Press)
El Paso, Tex., Oct. 16.—Delegates to the Twenty-third International Irrigation Congress today witnessed the special maneuvers of the 60,000 regular troops and national guardsmen who have been mobilized here since early summer.

Today these forces, the largest number of American soldiers ever gathered together in one place since the conclusion of the Civil War, began their week's program of war games and the working out of actual war problems on a large scale.

Delegates and visitors thronged the streets and visited the camps of the soldiers.

Waters Left by the Deluge

The Desert de Carlette, in the Pyrenees, close on 10,000 feet above the sea, contains no less than sixty lakes of varying sizes. These, according to local tradition, were left at the time of the flood. When the waters subsided it appears that Noah and his family landed on the Puy de Prigue, one of the highest peaks in the district. Convincing proof of the truth of this tradition is found in an iron ring to which, the peasants declare, the ark was moored when the landing was effected.

To Set Colors

The most common way to set colors is to use salt, about the proportion of a cupful to half a gallon of water, and before the goods are made up soak them in this mixture for a few hours.

It has been found by experimenting, however, that different colors respond to the different "fixers," as they are called, and that it is well for the housewife to study both her material and medium. Salt has been found most satisfactory in setting browns, black and pinks.

For blues use vinegar in the proportion of half a cupful of vinegar to one gallon of water. For lavender, sugar of lead is more often used, a table spoonful of sugar to a gallon of water being the proportion.

SEEKING NEW CONSTITUTION

Would Simply Government of Mexicans With New Code—Present Form Held to Be Clumsy by De Facto Representatives.

Atlantic City, N. J., Oct. 16.—Official information reaching here indicates it is not improbable General Carranza's impatience at the failure of the American government to withdraw General Pershing's troops may cause him to send to the state department at any time a communication that would give the conference of the Mexican-American joint commission a new aspect.

The Mexicans have been told repeatedly that until a satisfactory method of border control has been adopted the question of the withdrawal of American troops cannot be discussed and Villa activities have been cited as sufficient reason for the maintenance of that attitude.

Members of the commission who have been endeavoring for six weeks to effect a satisfactory adjustment of the international problems growing out of the disturbed conditions in Mexico appeared to have little hope that their work would be finished for at least another week. Their conferences will be resumed today.

Old Law Not Adequate

Mexico City, Oct. 16.—Felix M. Palavicini, former secretary of public instruction, who is understood to be the manager of General Carranza's campaign for the presidency, in a speech here, outlined the probable course of the new constitution. He stated the constitution of 1857 was inadequate and that neither Juarez nor Diaz had been able to govern under the constitution because it was inadequate in providing for contingencies.

General Carranza, according to the speaker, desired to govern, not by decree, but according to statute of law. The new constitution, he said, would provide for these contingencies and make government by statute possible.

HEAVY BORDER GUARD NEEDED--FUNSTON

San Antonio, Tex., Oct. 16.—At no time since the mobilization of the national guard has it seen safe to reduce the number of men on the Mexican border, in the opinion of Major General Frederick Funston, commanding the Southern department of the United States army.

"When you men of the national guard were called out," General Funston said, "of course you expected to go 'slam-bang' across the border, and let me tell you that when history is written, it will show that the calling out of the guard in June was no child's play—that it was a 'question of hours.'"

"The calling out of the national guard was absolutely necessary. All of you will know why some day."

"And I do not think there has been any time since when it would have been safe to reduce the number of men on the border."

The general's remarks were made in the course of a short talk at a dinner.

FUND OF \$30,000 IS RAISED

Chicagoans to Further Cause of Universal Military Training.

Chicago, Oct. 16.—Six citizens have contributed \$5,000 each toward a fund to be used in furthering the cause of universal military training.

The \$30,000 was raised in a few minutes to match a similar fund that had been raised in New York city to launch a league which has among its objects the enactment of legislation to make military training compulsory. It is planned to raise \$150,000.

Those who contributed to the local fund were Victor F. Lawson, Julius Rosenwald, Frank G. Logan, H. S. Vail, H. M. Byllesby and William Wrigley, Jr.

TO DISCUSS FUTURE COURSE

Rail Heads to Consider Eight-Hour Law in Denver.

Denver, Oct. 16.—Means of meeting the requirements of the Adamson eight-hour law are to be considered at a meeting of the American Railway association here Nov. 17.

Local railroad officials received word that a number of executives and managers who participated in the recent conference with President Wilson and representatives of the railroads preceding the enactment of the Adamson bill will be here.

Proposed methods of meeting the extra expenses and its distribution are expected to be discussed.

ANTI-SUFFRAGIST IS DEAD

Mrs. Alexander Preston of Baltimore Succumbs to Burns.

Baltimore, Oct. 16.—Mrs. Alexander Preston, one of Baltimore's prominent society matrons and a noted anti-suffragist, is dead at St. Joseph's hospital from burns. While striking a match her clothing became ignited and in an instant she was enveloped in flames.

Members of the household responded to her cries for help, but before the flames were smothered Mrs. Preston was burned about her face and body to her waist. She had also inhaled the flames.

MISSING MINER IS LOCATED

Has \$100 Left Out of \$10,000 After Two Weeks.

Seattle, Oct. 16.—E. E. Blaker, a wealthy miner of Marshall, Alaska, who disappeared the day after he arrived here from the north, Sept. 26, with \$10,000 in his pocket, was found in a stupor in a lodging house. He had only \$100 when found.

Mrs. Agnes Nard, and her husband, William Nard, who conduct the rooming house, were arrested, pending investigation.

Peace Agent Ill in Sweden.

Washington, Oct. 16.—Mme. Rosika Schwimmer, who persuaded Henry Ford to organize his peace party and charter the peace ship Oscar II, is ill and in want in Sweden. Word to this effect has reached Washington and was made known by one of Mme. Schwimmer's former co-workers.

Canada to Train Flyers.

Ottawa, Ont., Oct. 16.—An aviation school will be established in Canada under the direction of imperial authority and a factory for the manufacture of aeroplanes will be erected. Orders from the British government for the output of the factory are assured for the continuance of the war.

Carloads of Mahogany Destroyed.

Chicago, Oct. 16.—Many carloads of valuable mahogany were destroyed in a fire that burned all day through the long dry kiln of Karpen Brothers, furniture manufacturers. Julius Sock, a fireman, fell through a blazing roof and was burned seriously. The loss was estimated at \$100,000.

Predicts Government Ownership of Roads

Washington, Oct. 16.—Uncle Sam is going into the railroad business within the next decade, according to Benjamin C. Marsh, New York, executive secretary of the real preparedness committee of the Intercollegiate Socialist society, an organization backed morally and financially by Amos Pinchot.

"Every railroad in the U. S.—252,000 miles of them," said Marsh today, "will pass from private ownership within ten years to be operated in the interest of the public instead of the interstate of privilege."

"The railroad capitalists, being human wish to get wine prices for rain water. It is our mission to squeeze all the water out of the roads before the government takes them over."

Declaring ultimate Government operation of all roads, inevitable, Marsh said "the real problem is to see that the properties are not unloaded on the public at more than their actual value."

Humane Societies Meet

Cincinnati, Oct. 16.—Special emphasis will be placed on humane education to commemorate the work of Henry Bergh, founder of America's first anti-cruelty society, by members of the American Humane association, here today to attend their fortieth annual meeting which continues through Thursday. Today's work will be devoted to child protection and the remainder of the sessions to animal protection.

The association, with headquarters at Albany, N. Y., is a federation of 562 anti-cruelty societies. Last year the federated societies investigated and cared for cases of cruelty involving 212,215 children and 2,394,721 animals.

Made the Cannon Balls Fit.

The first battle of the war of 1812 was fought at Sackett's Harbor, July 9, 1812, and consisted of an attack made upon the village. The inhabitants had but one gun of sufficient size and strength to inflict damage, a thirty-two pounder, for which they had no shot. This difficulty was overcome by the patriotism of the housewives, who tore up carpets from the floors and with strips wound the small balls to fit the cannon.

A comedy drama that's beyond description. "War Orders" are the cause of all the trouble.

In the morning at the breakfast table he expressed himself thus from an overflowing heart:

"Well, we've been married thirty or forty years today. And, my dear, I want to hand you this tribute while I think of it. In the presence of these children and grandchildren I wish to state that during all these years never once have you been guilty of the reprehensible habit of going through my pockets for money after I have retired at night."

"That is true," acknowledged Mrs. Abintra, "but how do you know it?" "How do I know it?" cried Abintra. "Why, I have never once forgotten to count my change carefully night and morning."

This Week is "EDISON" Week

Do you know that over 600,000 people are now employed in industries founded by Thos. Edison?

This week is being observed by many of these industries in recognition of Mr. Edison's scientific achievements.

We observe the week by giving an Edison recital every day at our store and also by making it possible for a number of people in this community to compete in the

\$1000 Prize Contest

For the best descriptions of the enjoyment and musical education derived in the home from Mr. Edison's favorite and probably greatest invention.

THE NEW EDISON

What the Edison Company wants are the real heartfelt opinions of the people after they have heard this wonderful new instrument in their own homes.

The first prize is \$500.
Second, \$200.
Third, \$100.

Then there are consolation prizes aggregating \$200. In addition, the Edison Company will pay ten cents per word for opinions which, although not winning prizes, are considered suitable for publication.

We have set aside a limited number of these wonderful new instruments. They have been specially tested and will be placed in homes in this city on an absolutely free three days' trial during Edison Week.

Those who secure the benefit of these Edison Week free trials will be eligible to the big \$1,000 contest for the best opinions of the value of the New Edison in the home.

These opinions must not be over 200 words in length. Their literary quality does not count. Professional writers and all members of the phonograph trade are barred.

To Set Colors.

The most common way to set colors is to use salt, about the proportion of a cupful to half a gallon of water, and before the goods are made up soak them in this mixture for a few hours.

It has been found by experimenting, however, that different colors respond to the different "fixers," as they are called, and that it is well for the housewife to study both her material and medium. Salt has been found most satisfactory in setting browns, black and pinks.

For blues use vinegar in the proportion of half a cupful of vinegar to one gallon of water. For lavender, snail of lead is more often used, a table spoonful of sugar to a gallon of water being the proportion.

SEEKING NEW CONSTITUTION

Would Simply Government of Mexicans With New Code—Present Form Held to Be Clumsy by De Facto Representatives.

Atlantic City, N. J., Oct. 16.—Official information reaching here indicates it is not improbable General Carranza's impatience at the failure of the American government to withdraw General Pershing's troops may cause him to send to the state department at any time a communication that would give the conference of the Mexican-American joint commission a new aspect.

The Mexicans have been told repeatedly that until a satisfactory method of border control has been adopted the question of the withdrawal of American troops cannot be discussed and Villa activities have been cited as sufficient reason for the maintenance of that attitude.

Members of the commission who have been endeavoring for six weeks to effect a satisfactory adjustment of the international problems growing out of the disturbed conditions in Mexico appeared to have little hope that their work would be finished for at least another week. Their conferences will be resumed today.

Old Law Not Adequate.

Mexico City, Oct. 16.—Felix M. Palavicini, former secretary of public instruction, who is understood to be the manager of General Carranza's campaign for the presidency, in a speech here, outlined the probable course of the new constitution. He stated the constitution of 1857 was inadequate and that neither Juarez nor Diaz had been able to govern under the constitution because it was inadequate in providing for contingencies.

General Carranza, according to the speaker, desired to govern, not by decree, but according to statute of law. The new constitution, he said, would provide for these contingencies and make government by statute possible.

HEAVY BORDER GUARD NEEDED--FUNSTON

San Antonio, Tex., Oct. 16.—At no time since the mobilization of the national guard has it seen safe to reduce the number of men on the Mexican border, in the opinion of Major General Frederick Funston, commanding the Southern department of the United States army.

"When you men of the national guard were called out," General Funston said, "of course you expected to go 'slam-bang' across the border, and let me tell you that when history is written, it will show that the calling out of the guard in June was no child's play—that it was a 'question of hours.'"

"The calling out of the national guard was absolutely necessary. All of you will know why some day."

"And I do not think there has been any time since when it would have been safe to reduce the number of men on the border."

The general's remarks were made in the course of a short talk at a dinner.

FUND OF \$30,000 IS RAISED

Chicagoans to Further Cause of Universal Military Training.

Chicago, Oct. 16.—Six citizens have contributed \$30,000 each toward a fund to be used in furthering the cause of universal military training.

The \$30,000 was raised in a few minutes to match a similar fund that had been raised in New York city to launch a league which has among its objects the enactment of legislation to make military training compulsory. It is planned to raise \$150,000.

Those who contributed to the local fund were Victor F. Lawson, Julius Rosenwald, Frank G. Logan, H. S. Vail, H. M. Byllesby and William Wrigley, Jr.

TO DISCUSS FUTURE COURSE

Rail Heads to Consider Eight-Hour Law in Denver.

Denver, Oct. 16.—Means of meeting the requirements of the Adamson eight-hour law are to be considered at a meeting of the American Railway association here Nov. 17.

Local railroad officials received word that a number of executives and managers who participated in the recent conference with President Wilson and representatives of the railroads preceding the enactment of the Adamson bill will be here.

Proposed methods of meeting the extra expenses and its distribution are expected to be discussed.

Philippine Congress Inaugurated.

Manila, Oct. 16.—The Philippine congress was inaugurated here in the presence of 20,000 persons.

ANTI-SUFFRAGIST IS DEAD

Mrs. Alexander Preston of Baltimore Succumbs to Burns.

Baltimore, Oct. 16.—Mrs. Alexander Preston, one of Baltimore's prominent society matrons and a noted anti-suffragist, is dead at St. Joseph's hospital from burns. While striking a match her clothing became ignited and in an instant she was enveloped in flames.

Members of the household responded to her cries for help, but before the flames were smothered Mrs. Preston was burned about her face and body to her waist. She had also inhaled the flames.

MISSING MINER IS LOCATED

Has \$100 Left Out of \$10,000 After Two Weeks.

Seattle, Oct. 16.—E. E. Blunker, a wealthy miner of Marshall, Alaska, who disappeared the day after he arrived here from the north, Sept. 26, with \$10,000 in his pocket, was found in a stupor in a lodging house. He had only \$100 when found.

Mrs. Agnes Nard, and her husband, William Nard, who conduct the rooming house, were arrested, pending investigation.

Peace Agent Ill in Sweden.

Washington, Oct. 16.—Mme. Rosika Schwimmer, who persuaded Henry Ford to organize his peace party and charter the peace ship Oscar II, is ill and in want in Sweden. Word to this effect has reached Washington and was made known by one of Mme. Schwimmer's former co-workers.

Canada to Train Flyers.

Ottawa, Ont., Oct. 16.—An aviation school will be established in Canada under the direction of imperial authority and a factory for the manufacture of aeroplanes will be erected. Orders from the British government for the output of the factory are assured for the continuance of the war.

Carloads of Mahogany Destroyed.

Chicago, Oct. 16.—Many carloads of valuable mahogany were destroyed in a fire that burned all day through the long dry kiln of Karpen Brothers, furniture manufacturers. Julius Sock, a fireman, fell through a blazing roof and was burned seriously. The loss was estimated at \$100,000.

Cholera Suspects Taken From Ships.

Port Townsend, Wash., Oct. 16.—Thirteen cholera suspects have been found among the 150 steerage passengers landed at the Diamond Point quarantine station from the Japanese liners Panama Maru and Manila Maru, which arrived from the Orient last week.

Predicts Government Ownership of Roads

Washington, Oct. 16.—Uncle Sam is going into the railroad business within the next decade, according to Benjamin C. Marsh, New York, executive secretary of the real preparedness committee of the Intercollegiate Socialist society, an organization backed morally and financially by Amos Pinchot.

"Every railroad in the U. S.—252,000 miles of them," said Marsh today, "will pass from private ownership within ten years to be operated in the interest of the public instead of the interstate of privilege."

"The railroad capitalists, being human wish to get wine prices for rain water. It is our mission to squeeze all the water out of the roads before the government takes them over."

Declaring ultimate Government operation of all roads, inevitable, Marsh said "the real problem is to see that the properties are not unloaded on the public at more than their actual value."

Humane Societies Meet

Cincinnati, Oct. 16.—Special emphasis will be placed on humane education to commemorate the work of Henry Bergh, founder of America's first anti-cruelty society, by members of the American Humane association, here today to attend their fortieth annual meeting which continues through Thursday. Today's work will be devoted to child protection and the remainder of the sessions to animal protection.

The association, with headquarters at Albany, N. Y., is a federation of 562 anti-cruelty societies. Last year the federated societies investigated and cared for cases of cruelty involving 212,215 children and 2,394,721 animals.

Made the Cannon Balls Fit.

The first battle of the war of 1812 was fought at Sackett Harbor, July 9, 1812, and consisted of an attack made upon the village. The inhabitants had but one gun of sufficient size and strength to inflict damage, a thirty-two pounder, for which they had no shot. This difficulty was overcome by the patriotism of the housewives, who tore up carpets from the floors and with strips wound the small balls to fit the cannon.

BARNEY BERNARD in

PHANTOM FORTUNES

A comedy drama that's beyond description. "War Orders" are the cause of all the trouble.

In the morning at the breakfast table he expressed himself thus from an overflowing heart:

"Well, we've been married thirty or forty years today. And, my dear, I want to hand you this tribute while I think of it. In the presence of these children and grandchildren I wish to state that during all these years never once have you been guilty of the reprehensible habit of going through my pockets for money after I have retired at night."

"That is true," acknowledged Mrs. Abintra, "but how do you know it?"

"How do I know it?" cried Abintra. "Why, I have never once forgotten to count my change carefully night and morning."

This Week is "EDISON" Week

Do you know that over 600,000 people are now employed in industries founded by Thos. Edison?

This week is being observed by many of these industries in recognition of Mr. Edison's scientific achievements.

We observe the week by giving an Edison recital every day at our store and also by making it possible for a number of people in this community to compete in the

\$1000 Prize Contest

For the best descriptions of the enjoyment and musical education derived in the home from Mr. Edison's favorite and probably greatest invention.

THE NEW EDISON

What the Edison Company wants are the real heartfelt opinions of the people after they have heard this wonderful new instrument in their own homes.

The first prize is \$500.
Second, \$200.
Third, \$100.

Then there are consolation prizes aggregating \$200. In addition, the Edison Company will pay ten cents per word for opinions which, although not winning prizes, are considered suitable for publication.

We have set aside a limited number of these wonderful new instruments. They have been specially tested and will be placed in homes in this city on an absolutely free three days' trial during Edison Week.

Those who secure the benefit of these Edison Week free trials will be eligible to the big \$1,000 contest for the best opinions of the value of the New Edison in the home.

These opinions must not be over 200 words in length. Their literary quality does not count. Professional writers and all members of the phonograph trade are barred.

A WET SPOT IN INDIAN COUNTRY

Chief of Police Squires, Deputy Sheriff Giles and Special Officer Boyd Unearth Same

WALTER MCINTOSH IS ARRESTED

Five Gallons of Whiskey Sealed Goods of the Same Label, Found at 824 Fourth Street

Chief of Police Henry Squires, Deputy Sheriff John D. Gile and Special Officer E. G. Boyd, of the Indian department, found an oasis in the Indian territory desert at the home of Walter McIntosh, 824 Fourth street south, late Saturday afternoon. Two inspections were made of the place and the total liquor found amounted to about five gallons, all sealed goods bearing the same label.

Some of the liquor was found under the cot in the room, some out in the yard under a lumber pile and in other out of the way places.

McIntosh was taken before Judge W. A. Fleming, U. S. Court Commissioner, and placed under \$300 bonds. He could not raise the money and spent Saturday and Sunday in jail. His examination was continued to Monday morning.

At 10 this morning he was arraigned and after a hearing in which the officers named testified, McIntosh was bound over to the federal court and bonds fixed at \$500.

McIntosh is about 67 years old and came to Brainerd, he said, when the town was but a tented location. He is a single man and has spent years on the river and in the woods until disabled by exposure and hard work at Lake George. Exposure brought on asthma and other trouble for the old cruiser.

If he happened to have a little liquor under his bed, said McIntosh, it was for his own use and for medical purposes only. As to what was found anywhere else he possessed no knowledge of that.

The assertion is made by those in authority that McIntosh has been bootlegging and selling whiskey at \$1.25 a pint.

GUST EFSTON CANDY KITCHEN

"The Princess" in Fitger Block has Formal Opening Today, Carnations for the Ladies

Gust Efston, well known confectionery man, first located at 613 Laurel street, Citizens State bank building, will open his new store, fountain, and equipment, "The Princess," located in the Fitger block, this Monday.

Mr. Efston is one of the enterprising citizens of Brainerd, and it is shown in the fine place and most inviting one that he has made of the new business. The fountain is a model of beauty, in marble, backed by mirrors, and he has installed new fixtures and a brand new stock of candies, etc.

Carnations will be given away today to the ladies and many are visiting "The Princess."

At the Best Tonight

Even the typical "hobo" or tramp now enjoys all modern conveniences, according to Director J. G. Adolff, who recently returned from a tramping trip through the country in search of suitable "locations" for "Caprice of the Mountains," a William Fox photoplay which he produced.

"The country is as intersected with trolley lines and electrified railway lines," he said, "that the hobo no longer builds a fire to cook his meals. He does this by electricity, stealing the current by tapping any wire he may encounter."

"The Purple Lady"

"The Purple Lady," a five-act Metro-Rolife wonderplay, in which Ralph Herz, a newcomer to motion pictures, but long a favorite on the speaking stage, is starred, and Irene Howley is featured, will be the big attraction here at the Best theatre on Thursday. This production is one of the best that Metro has offered, and aside from a stirring story of mystery, thrills and sparkling comedy, many novelties are introduced.

HOUSE BURNED TO THE GROUND

Residence Owned by Mrs. Carrie Lindholm, 1219 South Broadway, Destroyed Sunday Morning

OUT OF THE HYDRANT DISTRICT

Valued at \$1200, No One in the House at Time of Fire, Barn Saved From Blaze

The house of Mrs. Carrie Lindholm, 1219 South Broadway, was destroyed by fire Sunday morning. The department made a prompt run to the scene, but the fact that the house is outside the hydrant limit, made it hard to fight the blaze. The barn was saved.

The house is owned by Mrs. Lindholm, an estate, with the Brainerd State bank and other parties having interests. The loss is covered by insurance. The house was two stories high, had six rooms and was valued at \$1200.

There had been a dancing party in the house the night before and a new tenant was to move in today. Firemen, owners and neighbors are at a loss to account for the origin of the blaze.

NEW \$3,600 FOUNTAIN

Crowds Throng the Olympia Candy Kitchen Saturday Evening on Formal Opening of Fountain

Crowds thronged the Olympia Candy Kitchen Saturday afternoon and evening on the formal opening of the new \$3,600 fountain installed by William Kontos and associates. It was a scene of splendor, with the fountain flashing in rare marble and German silver, electric and gas light illumination, new chairs and tables, waiters busy serving the ice cream, confections and sodas for which the Olympia is famous.

The Imperial orchestra of four pieces played and many lingered to hear them.

The fountain was made and installed by Bergstedt Brothers, of St. Paul. It is about 30 feet long, the front of marble and the back of mahogany. The mirror is of plate glass 24 feet long. The inside work, consisting of washing room, draining boards and spoon trays, is of solid German silver. The fountain is of the most sanitary pattern, with hot and cold water and things so arranged that the patron himself can be the judge of cleanliness.

Wm. Kontos and associates have faith in Brainerd and its business possibilities. Their heavy purchases of fountain and other equipment speak louder than words. They buy their material in Brainerd, make their candy in Brainerd and give employment to candy makers in Brainerd. They are boosters for home trade.

Olsen Skau, of Deerwood, was in the city to make arrangements for the attendance of a large crowd from Deerwood. Auto parties will drive to Brainerd from every community within 40 miles of Brainerd.

CALLS LAW A GOLD BRICK

Hughes Discusses Adamson Eight-Hour Enactment.

Wymore, Neb., Oct. 16.—At the railroad junction here, where the special train bearing Charles E. Hughes on his tour into Nebraska stopped to change engines, several hundred railroad employees crowded around the rear platform. Mr. Hughes came out and waved his hand.

"Tell us about the Adamson law," some one shouted.

Mr. Hughes had not intended to speak here, but accepted the invitation.

"I think this bill was a 'gold brick' for labor," he said. "That is my opinion of it. I do not think it will get labor anything. If wages can be raised over night in response to force properly applied you can have wages reduced by law sometimes over night, according to the application of the proper amount of force."

HOODOO HOVERS OVER BRAINERD

Little Falls Administers a Decisive Defeat to the Local Football Team at Little Falls

SCORE SATURDAY WAS 34 TO 0

Brainerd Line Woefully Weak and Practically all Gains Were Made Through Line

The 1916 Little Falls hoodoo is still hovering over our poor unlighted city. Not satisfied with handing out a whole string of defeats during the baseball season to our diamond representatives the down riverites continued their haughty winning streak by administering a decisive defeat, 34 to 0, to the boys who play football for the Brainerd high school. A large number of rooters accompanied the team to Little Falls and cheered themselves hoarse in an endeavor to spur our boys on to victory, but it was utterly hopeless with that 1916 Little Falls jinx hanging over their team.

Both Little Falls and Brainerd had played but one game previous to Saturday's game. Brainerd had trimmed the Aitkin team 52 to 0 and the next week the Little Falls aggregation beat them to the tune of 46 to 0. Taking the relative showing of the two teams into consideration the two teams were about evenly matched and a real close game was anticipated when Saturday's clash was staged.

Of course Little Falls had the advantage of playing on their own little ball lot and perhaps the locals were blinded by the illumination of the street lights to which they were not accustomed to at home or maybe some of our boys were afflicted with infantile paralysis, surely something was strange and extraordinary for our lads certainly did not play the football they are capable of playing.

Little Falls has a powerful team, perhaps the strongest in the history of their school, and far be it from us to detract in the least from their brilliant victory but it is also true that the locals have a good team and can play a much stronger game than the rather weak game played on Saturday.

The Brainerd line was woefully weak and practically all the gains were made through the line. Larson of the linemen, managed to hold his own. The entire Brainerd backfield played good football.

The individual star of the game was Captain Reis of the Brainerd team. He was always brilliant and his scintillating dashes were the feature of an otherwise featureless game. Once he received the ball on the kickoff and squirmed and twisted his way to within ten yards of the Little Falls goal line. Several times he skirted the ends for twenty and thirty yard gains. On the defense he was equally strong and his deadly tackling after the runner had eluded the other tacklers and seemed sure to score, prevented a much larger score from being rolled up.

Falconer, as usual was a tower of strength on the defense while John Olson and Hubbard played a most creditable game.

For Little Falls Tanner, Levine and Fritz cleared the stellar role and were responsible for most of the scoring.

Next Saturday the Brainerd team plays at Wadena and the following Saturday Little Falls comes to Brainerd for a return game and the boys will practice as they never practiced before to turn the tables on their old rivals. The boys are not discouraged and still contend that only that 1916 jinx prevented them from making a better showing.

TALKS ON THRIFT

The Turkey That Would Build a House, a Story of Delayed Good Intentions

There is a negro story of a turkey who, every time it snowed, drew his feathers about him and firmly resolved to build him a house. But before he could decide where to build, or what kind of a house, the sun came out and he would shake out his feathers, strut around and say to himself: "Nobody wants to be in a house on a day like this," and the result was he froze to death one winter night.

There are a lot of people in the same frame of mind as the turkey. When things are going wrong, work is slack, times are hard, sickness or accident comes and their money is gone, they firmly resolve that in the future they will take care of their money and look out for the rainy day; build them a house, as it were; but as soon as things right themselves, they forget their good resolution and the next time of need finds them as ill prepared as ever.

Most of us are merely grown up children. We want what we want when we want it. We live day by day. Tomorrow is a vague uncertainty to us. The boy will gorge himself with green apples in June and forget that there is a physical law against eating green apples. Tomorrow he will find it out, and may resolve not to eat green apples again; but a good resolution never gets a man anywhere unless he keeps it. Many a New Year's promise is made only to be broken and pledges are signed only to be forgotten. How many a man has resolved to stop drinking when drinking has brought him in court! He should have stopped before.

Thousands of men have firmly resolved that they would start a savings bank account, made a deposit or two, and then quit. An examination of the books of any savings bank will show a large number of accounts with but one deposit. It is mute evidence of a good resolution broken.

he was paying for insurance some other way and decided to put it in a savings bank, and proceeded to open an account for each child. The first was the last deposit ever made. The insurance collector quit his visits and the father's good resolution to save for his children stopped with his coming, and today they are without either a bank account or insurance.

The rainy day comes to every man. No matter how long it may be delayed or how distant it may seem, or how bright the sky today, trouble is bound to come to us all, some time. A WET SPOT IN INDIAN COUNTRY

Chief of Police Squires, Deputy Sheriff Giles and Special Officer Boyd Unearth Same

WALTER MCINTOSH IS ARRESTED

Five Gallons of Whiskey Sealed Goods of the Same Label, Found at 824 Fourth Street

Chief of Police Henry Squires, Deputy Sheriff John D. Gile and Special Officer E. G. Boyd, of the Indian department, found an oasis in the Indian territory desert at the home of Walter McIntosh, 824 Fourth street south, late Saturday afternoon. Two inspections were made of the place and the total liquor found amounted to about five gallons, all sealed goods bearing the same label.

Some of the liquor was found under the cot in the room, some out in the yard under a lumber pile and in other out of the way places.

McIntosh was taken before Judge W. A. Fleming, U. S. Court Commissioner, and placed under \$300 bonds. He could not raise the money and spent Saturday and Sunday in jail. His examination was continued to Monday morning.

At 10 this morning he was arraigned and after a hearing in which the officers named testified, McIntosh was bound over to the federal court and bonds fixed at \$500.

McIntosh is about 67 years old and came to Brainerd, he said, when the town was but a tented location. He is a single man and has spent years on the river and in the woods until disabled by exposure and hard work at Lake George. Exposure brought on asthma and other trouble for the old cruiser.

If he happened to have a little liquor under his bed, said McIntosh, it was for his own use and for medical purposes only. As to what was found anywhere else he possessed no knowledge of that.

The assertion is made by those in authority that McIntosh has been bootlegging and selling whiskey at \$1.25 a pint.

GUST EFSTON CANDY KITCHEN

"The Princess" in Fitter Block has Formal Opening Today, Carnations for the Ladies

Gust Efston, well known confectionery man, first located at 613 Laurel street, Citizens State bank building, will open his new store, fountain, and equipment, "The Princess," located in the Fitter block, this Monday.

Mr. Efston is one of the enterprising citizens of Brainerd, and it is shown in the fine place and most inviting one that he has made of the new business. The fountain is a model of beauty, in marble, backed by mirrors, and he has installed new fixtures and a brand new stock of candies, etc.

Carnations will be given away today to the ladies and many are visiting "The Princess."

GAVE OFFICER TUSSE

Officer Cheney and Ed Hagstrom in Wrestling Match, Officer is Victorious

Officer Fred C. Cheney had a hard tussle taking in a prisoner and for a while it was a wrestling match with honors even until the officer got a fresh hold and landed his man.

Ed Hagstrom, in municipal court this morning, drew a \$10 fine for drunkenness. Up to this afternoon he had not raised the fine money and is still resting in the lockup.

LEAVES FOR ARIZONA

John Craig, Mining Engineer, Engaged by Large Corporation in Copper Country

John Craig, for half a year employed as mining engineer by Carl Zapffe, has gone to Bisbee, Arizona, where he is employed by a large corporation. Mr. Craig made many friends in Brainerd. He was a graduate of the University of Minnesota. Arizona will offer him the opportunity to gain experience in copper mill work.

Card of Thanks

We desire to express our heartfelt thanks to the many kind friends and neighbors for aid and sympathy extended and for the beautiful floral offerings during our recent sad bereavement. We feel especially grateful to Mr. Geo. Berggren for his thoughtful kindness and his courteous services.

Mr. and Mrs. John Jackson and Family.

FRED T. LINCOLN ARRIVES TODAY

Fred T. Lincoln, of Thief River Falls, new secretary of the Brainerd Chamber of Commerce, arrived in Brainerd this afternoon and will attend the advisory board meeting this evening.

On Wednesday evening the Chamber of Commerce will extend a general welcome to him at the meeting to be held.

THE ASSAILANT OF OLGA DAHL

Search is being continued for the assailant of Miss Olga Dahl, who was brutally assaulted in the vicinity of her school near Round lake, east of Blackduck.

Sheriff Claus A. Theorin has this description of the man furnished him by Sheriff Gunderson:

Height 5 feet 6 inches. Age about 24 years. Weight 150 pounds. Has stoop shoulders. Dark complexion. Black hair and smooth face. Wore a black hat, black or blue clothes, top boots and leather strings.

MINISTERIAL ASSOCIATION

Rev. W. J. Lowrie Read a Paper This Morning on "Home Missions"

The Ministerial association met this morning and listened to a paper by Rev. W. J. Lowrie on "Home Missions." The paper next Monday will be read by Rev. G. P. Sheridan. These meetings are increasing in interest and the clergy of the city are taking a good deal of interest in them. All ministers of the city are invited and urged to be present.

At the Best Tonight

Even the typical "hobo" or tramp now enjoys all modern conveniences, according to Director J. G. Adoli, who recently returned from a tramping trip through the country in search of suitable "locations" for "Caprice of the Mountains," a William Fox photoplay which he produced.

"The country is as intersected with trolley lines and electrified railway lines," he said, "that the hobo no longer builds a fire to cook his meals. He does this by electricity, stealing the current by tapping any wire he may encounter."

"The Purple Lady"

"The Purple Lady," a five-act Metro-Rolle wonderplay, in which Ralph Herz, a newcomer to motion pictures, but long a favorite on the speaking stage, is starred, and Irene Howley is featured, will be the big attraction here at the Best theatre on Thursday. This production is one of the best that Metro has offered, and aside from a stirring story of mystery, thrills and sparkling comedy, many novelties are introduced.

Used it Eleven Years

There is one remedy that for many years has given relief from coughs, colds, croup and whooping cough. Mrs. Chas. HOUSE BURNED TO THE GROUND

Residence Owned by Mrs. Carrie Lindholm, 1219 South Broadway, Destroyed Sunday Morning

OUT OF THE HYDRANT DISTRICT

Valued at \$1200, No One in the House at Time of Fire, Barn Saved From Blaze

The house of Mrs. Carrie Lindholm, 1219 South Broadway, was destroyed by fire Sunday morning. The department made a prompt run to the scene, but the fact that the house is outside the hydrant limit, made it hard to fight the blaze. The barn was saved.

The house is owned by Mrs. Lindholm, an estate, with the Brainerd State bank and other parties having interests. The loss is covered by insurance. The house was two stories high, had six rooms and was valued at \$1200.

There had been a dancing party in the house the night before and a new tenant was to move in today. Firemen, owners and neighbors are at a loss to account for the origin of the blaze.

NEW \$3,600 FOUNTAIN

Crowds Throng the Olympia Candy Kitchen Saturday Evening on Formal Opening of Fountain

Crowds thronged the Olympia Candy Kitchen Saturday afternoon and evening on the formal opening of the new \$3,600 fountain installed by William Kontos and associates. It was a scene of splendor, with the fountain flashing in rare marble and German silver, electric and gas light illumination, new chairs and tables, waiters busy serving the ice cream, confections and sodas for which the Olympia is famous.

The Imperial orchestra of four pieces played and many lingered to hear them.

The fountain was made and installed by Bergstedt Brothers, of St. Paul. It is about 30 feet long, the front of marble and the back of mahogany. The mirror is of plate glass 24 feet long. The inside work, consisting of washing room, draining boards and spoon trays, is of solid German silver. The fountain is of the most sanitary pattern, with hot and cold water and things so arranged that the patron himself can be the judge of cleanliness.

Wm. Kontos and associates have faith in Brainerd and its business possibilities. Their heavy purchases of fountain and other equipment speak louder than words. They buy their material in Brainerd, make their candy in Brainerd and give employment to candy makers in Brainerd. They are boosters for home trade.

TO HEAR THE GOV. SATURDAY

Deerwood and the Cuyuna range people are agitating for a special train to carry them to Brainerd Oct. 21 when Governor J. A. A. Burnquist makes his keynote campaign speech in Brainerd.

Olsen Skau, of Deerwood, was in the city to make arrangements for the attendance of a large crowd from Deerwood. Auto parties will drive to Brainerd from every community within 40 miles of Brainerd.

CALLS LAW A GOLD BRICK

Hughes Discusses Adamson Eight-Hour Enactment.

Wymore, Neb., Oct. 16.—At the railroad junction here, where the special train bearing Charles E. Hughes on his tour into Nebraska stopped to change engines, several hundred railroad employees crowded around the rear platform. Mr. Hughes came out and waved his hand.

"Tell us about the Adamson law," some one shouted.

Mr. Hughes had not intended to speak here, but accepted the invitation.

"I think this bill was a 'gold brick' for labor," he said. "That is my opinion of it. I do not think it will get labor anything. If wages can be raised over night in response to force properly applied you can have wages reduced by law sometimes over night, according to the application of the proper amount of force."

Plaint of an Artist.

"How was the big political meeting?" "It should have been better," replied the leader of the band. "If the speakers hadn't kept getting up and interrupting the music it would have been a fine concert."—Washington Star.

HOODOO HOVERS OVER BRAINERD

Little Falls Administers a Decisive Defeat to the Local Football Team at Little Falls

SCORE SATURDAY WAS 34 TO 0

Brainerd Line Woefully Weak and Practically all Gains Were Made Through Line

The 1916 Little Falls hoodoo is still hovering over our poor unlighted city. Not satisfied with handing out a whole string of defeats during the baseball season to our diamond representatives the down riverites continued their haughty winning streak by administering a decisive defeat, 34 to 0, to the boys who play football for the Brainerd high school. A large number of rooters accompanied the team to Little Falls and cheered themselves hoarse in an endeavor to spur our boys on to victory, but it was utterly hopeless with that 1916 Little Falls jinx hanging over their team.

Both Little Falls and Brainerd had played but one game previous to Saturday's game. Brainerd had trimmed the Altika team 52 to 0 and the next week the Little Falls aggregation beat them to the tune of 46 to 0. Taking the relative showing of the two teams into consideration the two teams were about evenly matched and a real close game was anticipated when Saturday's clash was staged.

Of course Little Falls had the advantage of playing on their own little ball lot and perhaps the locals were blinded by the illumination of the street lights to which they were not accustomed to at home or maybe some of our boys were afflicted with infantile paralysis, surely something was strange and extraordinary for our lads certainly did not play the football they are capable of playing.

Little Falls has a powerful team, perhaps the strongest in the history of their school, and far be it from us to detract in the least from their brilliant victory but it is also true that the locals have a good team and can play a much stronger game than the rather weak game played on Saturday.

The Brainerd line was woefully weak and practically all the gains were made through the line. Larson of the linebackers, managed to hold his own. The entire Brainerd backfield played good football.

The individual star of the game was Captain Reis of the Brainerd team. He was always brilliant and his scintillating dashes were the feature of an otherwise featureless game. Once he received the ball on the kickoff and squirmed and twisted his way to within ten yards of the Little Falls goal line. Several times he skirted the ends for twenty and thirty yard gains. On the defense he was equally strong and his deadly tackling after the runner had eluded the other tacklers and seemed sure to score, prevented a much larger score from being rolled up.

Falconer, as usual was a tower of strength on the defense while John Olson and Hubbard played a most creditable game.

For Little Falls Tanner, Levine and Elvik played the stellar role and were responsible for most of the scoring.

Next Saturday the Brainerd team plays at Wadena and the following Saturday Little Falls comes to Brainerd for a return game and the boys will practice as they never practiced before to turn the tables on their old rivals. The boys are not discouraged and still contend that only that 1916 jinx prevented them from making a better showing.

Cholly—That dog knows as much as I do! Ethel—Well, that's enough for a house dog!—Puck.

"How long have you been in love with him?" "Ever since I rejected him."

The Turkey That Would Build a House, a Story of Delayed Good Intentions

There is a negro story of a turkey who, every time it snowed, drew his feathers about him and firmly resolved to build him a house. But before he could decide where to build, or what kind of a house, the sun came out and he would shake out his feathers, strut around and say to himself: "Nobody wants to be in a house on a day like this," and the result was he froze to death one winter night.

There are a lot of people in the same frame of mind as the turkey. When things are going wrong, work is slack, times are hard, sickness or accident comes and their money is gone, they firmly resolve that in the future they will take care of their money and look out for the rainy day; build them a house, as it were; but as soon as things right themselves, they forget their good resolution and the next time of need finds them as ill prepared as ever.

Most of us are merely grown up children. We want what we want when we want it. We live day by day. Tomorrow is a vague uncertainty to us. The boy will gorge himself with green apples in June and forget that there is a physical law against eating green apples. Tomorrow he will find it out, and may resolve not to eat green apples again; but a good resolution never gets a man anywhere unless he keeps it. Many a New Year's promise is made only to be broken and pledges are signed only to be forgotten. How many a man has resolved to stop drinking when drinking has brought him in court! He should have stopped before.

Thousands of men have firmly resolved that they would start a savings bank account, made a deposit or two, and then quit. An examination of the books of any savings bank will show a large number of accounts with but one deposit. It is mute evidence of a good resolution broken. A certain father with two children had them insured in an industrial insurance company. He concluded that he could save the money

Was Jake Daubert Out at the Home Plate?

In the sixth inning of the third game of the world's series Jake Daubert, star first baseman of the Brooklyn club, shot a liner into left field. It took a bad bound past Duffy Lewis, Lewis quickly recovered the ball. Catcher Thomas had his legs spraddled out so Daubert could not reach the home plate. Umpire O'Day called him out, and the Brooklyn fans went mad. But it turned out Brooklyn did not need the run to win. It was the third hit Daubert had made during the day.

TRAIN CRASHES INTO CABOOSE

Ten Die and Eleven Others Are Seriously Injured.

NEBRASKA MEN ARE VICTIMS

Burlington Train Plows Through a Freight at Elwood, Neb., With Fearful Result—Passengers Say Warning Signals Were Not Out.

Elwood, Neb., Oct. 16.—Ten men were killed and eleven others were injured seriously when a train on the Burlington railroad crashed into the freight caboose in which they were riding, twelve miles east of here.

Five other men standing on the rear platform of the caboose saw the approaching train soon enough to jump to safety. One other man in the caboose cupola was thrown clear of the wreck and escaped injury.

The trains in collision were sections of a regular stock train. Lack of lights and warning signals is given by survivors as the cause of the accident. All the victims were residents of Nebraska towns. Most of them were farmers or stockmen.

The trains in collision were the second and third sections of No. 156. The second section had trouble with hot boxes and had stopped at a point about half way between Smithfield and Bertrand.

The crews of the second section was at work on the hot boxes when the third section crashed into the second section caboose. No one was aware of the danger until the third section was within a few yards of the rear end of the second.

The twenty-one men in the caboose were jammed into a space of less than four feet in width and this was filled with wreckage.

CAPTAINS TO TESTIFY IN CASE OF CHIEF

Chicago, Oct. 16.—Fifteen police captains have been served with subpoenas to testify in municipal court today on the application of State's Attorney Hoyne for warrants for the arrest of Charles C. Healey, chief of police, and others, on charges of hampering subordinate officials in the suppression of vice.

William P. O'Brien, suspended police captain, who Saturday testified he had not been allowed to interfere with all night cafes, known as "black and tans," in which whites and blacks danced and drank together, probably will be the first to take the stand.

Correspondence between the police officials served with subpoenas and Chief Healey is in the hands of State's Attorney Hoyne, being taken in his raid last week on the city hall. The police officials will be asked to testify about circumstances leading to the letters in the files.

Ohio Interurban Hits Auto of Wealthy Stock Breeder.

Oberlin, O., Oct. 16.—John Hughes, Jr., wealthy stock breeder; his wife, one daughter and Mrs. Hollingsworth, a neighbor, were killed and a second daughter severely injured when an interurban car struck the automobile in which the party was crossing the car tracks in the front lawn of the Hughes' country home.

Lenore Hughes, the eleven-year-old daughter, who is injured, is the only survivor of the family.

AVIATOR DIES FROM INJURIES

Gave Up Law Practice to Serve France as Airman.

Beverly, Mass., Oct. 16.—Norman Prince, the American aviator who was wounded recently in France died of his injuries, according to a cable message received by his mother. The message, which was sent by the young man's uncle, Dr. Morton Prince, who is in Paris, gave no particulars.

Prince, a graduate of Harvard university, gave up the practice of law in Chicago to serve in the French aviation corps and gained the rank of sergeant major.

Last week he was decorated for distinguished service.

RAILWAYBUILDER DIES AT SEA

Virgil Gay Bogue Built Mountain Portion of Northern Pacific.

New York, Oct. 16.—Virgil Gay Bogue of this city, one of the foremost civil engineers in America, died on board the steamship Esperanza of the Ward line on the way from Mexico to New York, according to a wireless message received here. His illness was brief.

Mr. Bogue built the most difficult portion of the famous trans-Andean railway system in Peru, and he planned and built the mountain portion of the Northern Pacific railway, discovering "Stampede pass" in the Cascade mountains, which he named.

Mr. Bogue was born at Norfolk, N. Y., in 1846.

ALLIES REFUSE TO STOP SEIZURE OF U. S. MAILS

Washington, Oct. 16.—Great Britain and France, in a note made public by the state department, flatly refuse to stop seizing mail of neutral countries. The allied governments differ from the American government on the question of neutral mail rights in the following points and maintain:

That they are justified in forcing neutral ships into allied ports for the purpose of censoring mail.

As the Hague convention was not signed by all of the belligerents, the allies are not bound by its provisions respecting mail censorship.

The practices of nations in previous wars show no rule prohibiting the present allied censorship policy.

Germany, contrary to the statement of the United States that she has observed the American principles, has sunk many steamers with the consequent total loss of the mails aboard.

Money order lists of the United postoffice are really the same as money orders and therefore subject to seizure by the allies.

Although state department officials refused to comment formally on the note, it is known the department does not agree with the allies' assumption that "the government of the United States acknowledges it agrees with the allied governments as to principle."

MAIL NOTE FAILS TO SATISFY

Washington Officials Assert, However, Immediate Reply Is Improbable.

Washington, Oct. 16.—Examination of the allies' note on the censorship of mails has brought a feeling among officials that it does not satisfactorily meet the protests set forth in the American note of May 24, which said that "only a radical change restoring to the United States its full rights as a neutral power will satisfy the government."

The state department has watched with interest, however, the informal arrangements made by British authorities through their trade department and through such conferences as that of Sir Richard Crawford in New York recently, and is understood to feel that resentment among American citizens over the allied censorship has been greatly lessened.

It is thought unlikely that any reply will be made in the three weeks before election.

STRAW VOTES ARE RAGE JUST NOW

Not Very Valuable as Indicating Outcome of Elections.

ADAMSON GETS PUBLICITY.

Author of Eight Hour Law Basks in Sunshine of Continuous Public Mention—Returning Troops Will Make Votes For Wilson, Is Democratic View.

By ARTHUR W. DUNN.

Washington, Oct. 16.—[Special.]—These are the days of straw votes. They are interesting and valuable as comparisons with the last presidential election and with the votes in the primaries as showing the tendency of voters. Straw votes are not always reliable, and consequently the statistics of such canvasses may often be misleading. Straw voters may vote one way about the first part of October and vote the other way in November.

Then there is always this to remember: The thinking, independent voters, those who decide great national contests at the ballot, are not apt to pay any attention to requests for straw votes. They are not likely to take the time or trouble to fill out the card and mail it to the straw vote collector. Besides, many of them may not have made up their minds as to how they will vote this fall.

Advertising Adamson.

Congressman Adamson of Georgia is feeling pretty good these days. In the first place, being from a southern state, he does not have to worry about his election. But what pleases him most is the amount of advertising he is getting, much of it furnished by Mr. Hughes in talking about the Adamson eight hour law. Adamson says he will have to send the Republican candidate a chromo at the end of the campaign.

Adamson does not want anybody but himself to have the credit for the origin of the eight hour law. He says that he had to convince the president and Senator Newlands of the senate committee that his plan was right. But he has to allow that it was the power of the president over congress that put the bill through.

Bringing Home the Troops.

The return of the soldiers from the border to their homes is going to help President Wilson, according to the opinion of a very good political judge. Particularly in states where the women vote the return of the state troops is expected to offset any advantages Hughes might have gained by his flat footed declaration for the Anthony suffrage amendment.

"Mother is going to rejoice that her boy has come home alive," said this observer, "and she is going to praise Wilson for keeping us out of war. She is going to vote for Wilson and make father do the same. Make no mistake about it, this 'He's kept us out of war' stuff is going to be a big figure in the election."

It Sounds Funny.

Henry S. Jackson, the negro member of the national committee from Georgia, either has a large sense of humor or caught a glib reporter, for he got a story published to the effect that the Republicans have an excellent chance of carrying Georgia this year and of electing at least two Republican members of congress. Then he cites figures to show the votes cast for Taft in 1908 and names the congressional districts where the Republicans hope for success.

If any one can remember when Georgia had a Republican member of the house he belongs to the "oldest inhabitant club." Once, in the high tide of populism, Tom Watson represented a district for a term, but there has nev-

er been a chance for a Republican in that rock ribbed Democratic state.

Lo, the Rich Indian!

The report of Cato Sells, Indian commissioner, shows that instead of being a decadent and ever decreasing race, as has been told in pathetic verse and maudlin heroic prose, the Indian is in a better condition now than ever before. He is far richer, his lands are becoming more valuable, and the purposes are increasing in homes instead of decreasing in the tepees. It is no longer Lo, the poor Indian! It is the rich aborigine.

There is a very warm political contest in West Virginia, and echoes of the fight drift into Washington from various sources. Not only is there a sharp contest for the electoral votes, but Howard Sutherland and William E. Chilton are having a lively tussle for the senatorship. Both parties claim an advantage, but the Republicans have become a little more confident in their claims during the later days.

Shipbuilding on the Pacific.

A man from Portland, Ore., asserts that never before in the history of the country has there been such a boom in the shipbuilding industry as is now on at present in the Portland district, and this, he says, extends to the whole Pacific coast. He says the shipping bill of the last congress will aid the industry, though up to the present time it has not had an opportunity to have any influence.

JAPAN AND RUSSIA OBJECT

Enter Protests at Peking Against Chinese Rail Contract.

St. Paul, Oct. 16.—Protests were entered at Peking by Japan and Russia against concessions for railway and canal construction in China, which have been granted to the Siemens-Carey company of St. Paul. An international complication is a possibility, though the American government has had no part in arranging the St. Paul contract.

The Siemens-Carey company has the contract for the construction, as soon as possible, of 1,500 miles of railway through the richest sections of China and an optional agreement of an additional 1,500 miles later.

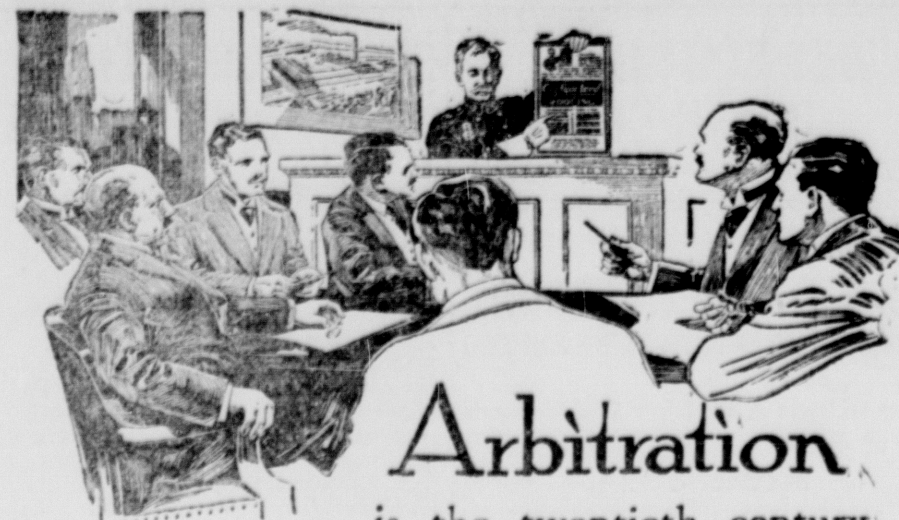

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs. Those who wake up with bad breath, coated tongue, nasty taste or have a full, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

Arbitration

is the twentieth century means of settling disputes.

In time, Arbitration should supplant war in deciding differences between great nations. Acceptance of the principle of Arbitration will render great industrial strikes impossible—and even minor differences will come to be settled by this means. Impartial judges can be counted upon to render fair decisions.

To impartial judges of roofing, we will always be willing to leave decision as to the comparative merits of roofings, confident that intelligent investigation will result in a decision for

Certain-teed Roofing

An investigation into methods of manufacturing would show that only the best quality of roofing felts is used in CERTAIN-TEED roofing. This is thoroughly saturated with a blend of soft asphalt—the formula of the General's Board of Expert Chemists. It is then coated with a blend of harder asphalt, which forms an impervious coating and prevents the inner saturation from drying out.

This explains why CERTAIN-TEED outlives ordinary roofing, and why it is possible to guarantee it for 5, 10 or 15 years, according to ply (1, 2 or 3). The responsibility of the world's largest manufacturer of roofings and building papers is behind this guarantee; which is conservative, as experience proves that CERTAIN-TEED outlives the period of guarantee.

The General makes one third of America's supply of asphalt roll roofing. His facilities are unequalled, and he is able to produce the highest quality roofing at the lowest manufacturing cost.

CERTAIN-TEED is made in rolls; also in a slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.

Was Jake Daubert Out at the Home Plate?

In the sixth inning of the third game of the world's series Jake Daubert, star first baseman of the Brooklyn club, shot a liner into left field. It took a bad bound past Duffy Lewis, Lewis quickly recovered the ball. Catcher Thomas had his legs spraddled out so Daubert could not reach the home plate. Umpire O'Day called him out, and the Brooklyn fans went mad. But it turned out Brooklyn did not need the run to win. It was the third hit Daubert had made during the day.

TRAIN CRASHES INTO CABOOSE

Ten Die and Eleven Others Are Seriously Injured.

NEBRASKA MEN ARE VICTIMS

Burlington Train Plows Through a Freight at Elwood, Neb., With Fearful Result—Passengers Say Warning Signals Were Not Out.

Elwood, Neb., Oct. 16.—Ten men were killed and eleven others were injured seriously when a train on the Burlington railroad crashed into the freight caboose in which they were riding, twelve miles east of here.

Five other men standing on the rear platform of the caboose saw the approaching train soon enough to jump to safety. One other man in the caboose cupola was thrown clear of the wreck and escaped injury.

The trains in collision were sections of a regular stock train. Lack of lights and warning signals is given by survivors as the cause of the accident. All the victims were residents of Nebraska towns. Most of them were farmers or stockmen.

The trains in collision were the second and third sections of No. 156. The second section had trouble with hot boxes and had stopped at a point about half way between Smithfield and Bertrand.

The crews of the second section was at work on the hot boxes when the third section crashed into the second section caboose. No one was aware of the danger until the third section was within a few yards of the rear end of the second.

The twenty-one men in the caboose were jammed into a space of less than four feet in width and this was filled with wreckage.

AVIATOR DIES FROM INJURIES

Gave Up Law Practice to Serve France as Airman.

Beverly, Mass., Oct. 16.—Norman Prince, the American aviator who was wounded recently in France died of his injuries, according to a cable message received by his mother. The message, which was sent by the young man's uncle, Dr. Morton Prince, who is in Paris, gave no particulars.

Prince, a graduate of Harvard university, gave up the practice of law in Chicago to serve in the French aviation corps and gained the rank of sergeant major.

Last week he was decorated for distinguished service.

RAILWAYBUILDER DIES AT SEA

Virgil Gay Bogue Built Mountain Portion of Northern Pacific.

New York, Oct. 16.—Virgil Gay Bogue of this city, one of the foremost civil engineers in America, died on board the steamship Esperanza of the Ward line on the way from Mexico to New York, according to a wireless message received here. His illness was brief.

Mr. Bogue built the most difficult portion of the famous trans-Andean railway system in Peru, and he planned and built the mountain portion of the Northern Pacific railway, discovering "Stampede pass" in the Cascade mountains, which he named.

Mr. Bogue was born at Norfolk, N. Y., in 1846.

ALLIES REFUSE TO STOP SEIZURE OF U.S. MAILS

Washington, Oct. 16.—Great Britain and France, in a note made public by the state department, flatly refuse to stop seizing mail of neutral countries. The allied governments differ from the American government on the question of neutral mail rights in the following points and maintain:

That they are justified in forcing neutral ships into allied ports for the purpose of censoring mail.

As the Hague convention was not signed by all of the belligerents, the allies are not bound by its provisions respecting mail censorship.

The practices of nations in previous wars show no rule prohibiting the present allied censorship policy.

Germany, contrary to the statement of the United States that she has observed the American principles, has sunk many steamers with the consequent total loss of the mails aboard.

Money order lists of the United postoffice are really the same as money orders and therefore subject to seizure by the allies.

Although state department officials refused to comment formally on the note, it is known the department does not agree with the allies' assumption that "the government of the United States acknowledges it agrees with the allied governments as to principle."

CAPTAINS TO TESTIFY IN CASE OF CHIEF

Chicago, Oct. 16.—Fifteen police captains have been served with subpoenas to testify in municipal court today on the application of State's Attorney Hoyne for warrants for the arrest of Charles C. Healey, chief of police, and others, on charges of hampering subordinate officials in the suppression of vice.

William P. O'Brien, suspended police captain, who Saturday testified he had not been allowed to interfere with all night cafes, known as "black and tans," in which whites and blacks danced and drank together, probably will be the first to take the stand.

Correspondence between the police officials served with subpoenas and Chief Healey is in the hands of State's Attorney Hoyne, being taken in his raid last week on the city hall. The police officials will be asked to testify about circumstances leading to the letters in the files.

MAIL NOTE FAILS TO SATISFY

Washington Officials Assert, However, Immediate Reply Is Improbable.

Washington, Oct. 16.—Examination of the allies' note on the censorship of mails has brought a feeling among officials that it does not satisfactorily meet the protests set forth in the American note of May 24, which said that "only a radical change restoring to the United States its full rights as a neutral power will satisfy the government."

The state department has watched with interest, however, the informal arrangements made by British authorities through their trade conferences and through such conferences as that of Sir Richard Crawford in New York recently, and is understood to feel that resentment among American citizens over the allied censorship has been greatly lessened.

It is thought unlikely that any reply will be made in the three weeks before election.

STRAW VOTES ARE RAGE JUST NOW

Not Very Valuable as Indicating Outcome of Elections.

ADAMSON GETS PUBLICITY.

Author of Eight Hour Law Basks in Sunshine of Continuous Public Mention—Returning Troops Will Make Votes For Wilson, Is Democratic View.

By ARTHUR W. DUNN.

Washington, Oct. 16.—[Special]—These are the days of straw votes. They are interesting and valuable as comparisons with the last presidential election and with the votes in the primaries as showing the tendency of voters. Straw votes are not always reliable, and consequently the statistics of such canvasses may often be misleading. Straw voters may vote one way about the first part of October and vote the other way in November.

Then there is always this to remember: The thinking, independent voters, those who decide great national contests at the ballot, are not apt to pay any attention to requests for straw votes. They are not likely to take the time or trouble to fill out the card and mail it to the straw vote collector. Besides, many of them may not have made up their minds as to how they will vote this fall.

Advertising Adamson.

Congressman Adamson of Georgia is feeling pretty good these days. In the first place, being from a southern state, he does not have to worry about his election. But what pleases him most is the amount of advertising he is getting, much of it furnished by Mr. Hughes in talking about the Adamson eight hour law. Adamson says he will have to send the Republican candidate a chromo at the end of the campaign.

Adamson does not want anybody but himself to have the credit for the origin of the eight hour law. He says that he had to convince the president and Senator Newlands of the senate committee that his plan was right. But he has to allow that it was the power of the president over congress that put the bill through.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a full, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

A man from Portland, Ore., asserts that never before in the history of the country has there been such a boom in the shipbuilding industry as is now on at present in the Portland district, and this, he says, extends to the whole Pacific coast. He says the shipping bill of the last congress will aid the industry, though up to the present time it has not had an opportunity to have any influence.

JAPAN AND RUSSIA OBJECT

Enter Protests at Peking Against Chinese Rail Contract.

St. Paul, Oct. 16.—Protests were entered at Peking by Japan and Russia against concessions for railway and canal construction in China, which have been granted to the Siemens-Carey company of St. Paul. An international complication is a possibility, though the American government has had no part in arranging the St. Paul contract.

The Siemens-Carey company has the contract for the construction, as soon as possible, of 1,500 miles of railway through the richest sections of China and an optional agreement of an additional 1,500 miles later.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a full, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

Arbitration

is the twentieth century means of settling disputes.

In time, Arbitration should supplant war in deciding differences between great nations. Acceptance of the principle of Arbitration will render great industrial strikes impossible—and even minor differences will come to be settled by this means. Impartial judges can be counted upon to render fair decisions.

To impartial judges of roofing, we will always be willing to leave decision as to the comparative merits of roofings, confident that intelligent investigation will result in a decision for

Certain-teed Roofing

An investigation into methods of manufacturing would show that only the best quality of roofing felts is used in CERTAIN-TEED roofing. This is thoroughly saturated with a blend of soft asphalts—the formula of the General's Board of Expert Chemists. It is then coated with a blend of harder asphalts, which forms an impervious coating and prevents the inner saturation from drying out.

This explains why CERTAIN-TEED outlives ordinary roofing, and why it is possible to guarantee it for 5, 10 or 15 years, according to ply (1, 2 or 3). The responsibility of the world's largest manufacturer of roofings and building papers is behind this guarantee; which is conservative, as experience proves that CERTAIN-TEED outlives the period of guarantee.

The General makes one third of America's supply of asphalt roll roofing. His facilities are unequalled, and he is able to produce the highest quality roofing at the lowest manufacturing cost.

CERTAIN-TEED is made in rolls; also in a slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.
